

FOR UNPARALLELED  
PERFORMANCE ON THE ROAD,  
ALONG THE TRAIL, AND OVER  
THE COURSE, YOUR SEALING  
SOLUTIONS HAVE TO BE

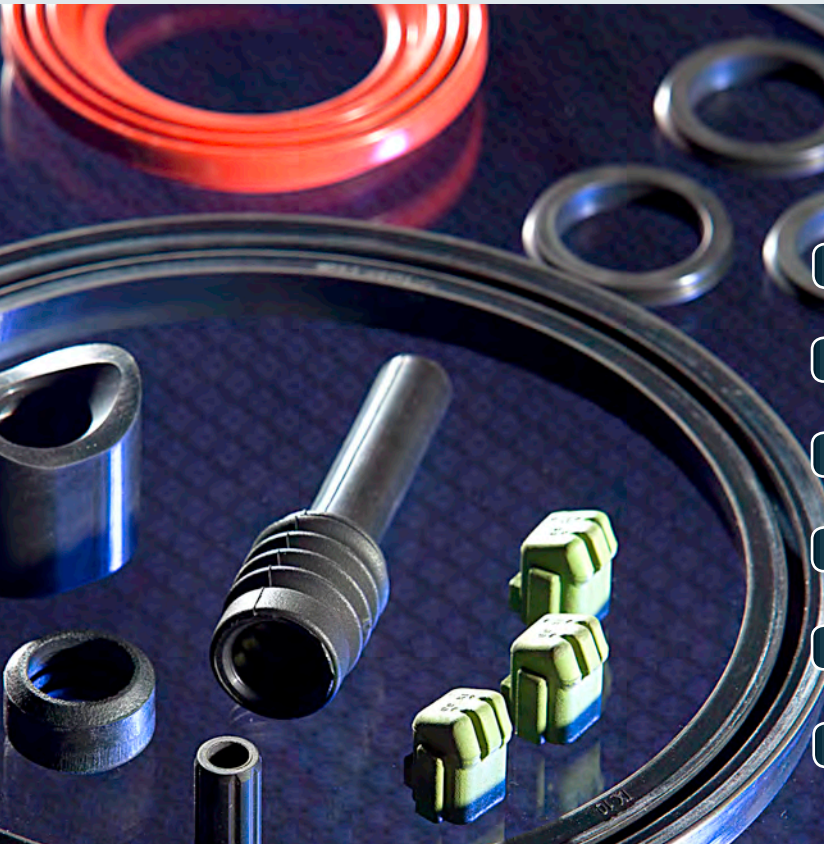

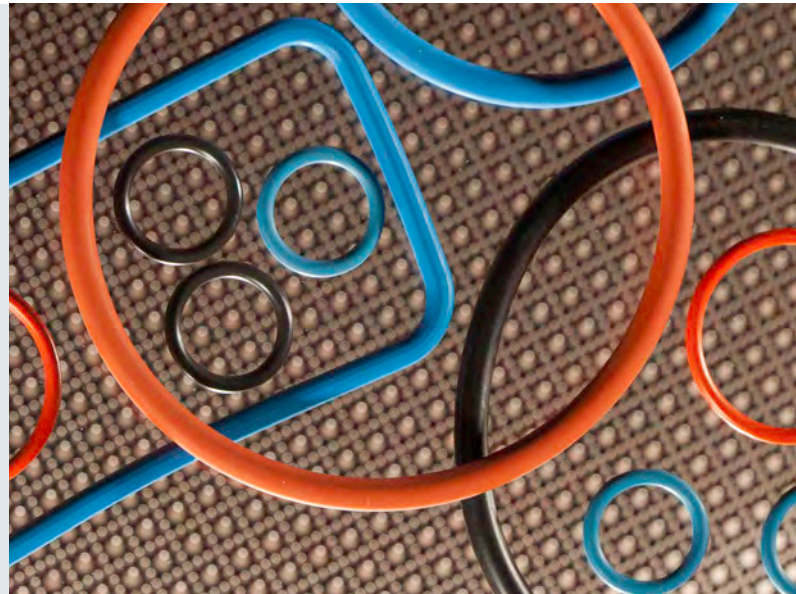

SUCCESS DEMANDS PRECISION®

Precix® is driven to excel in automotive applications. From cars to class 8 trucks, ATVs to buses, if it transports people or freight, chances are Precix® has designed, engineered, and manufactured many of its vital system components.

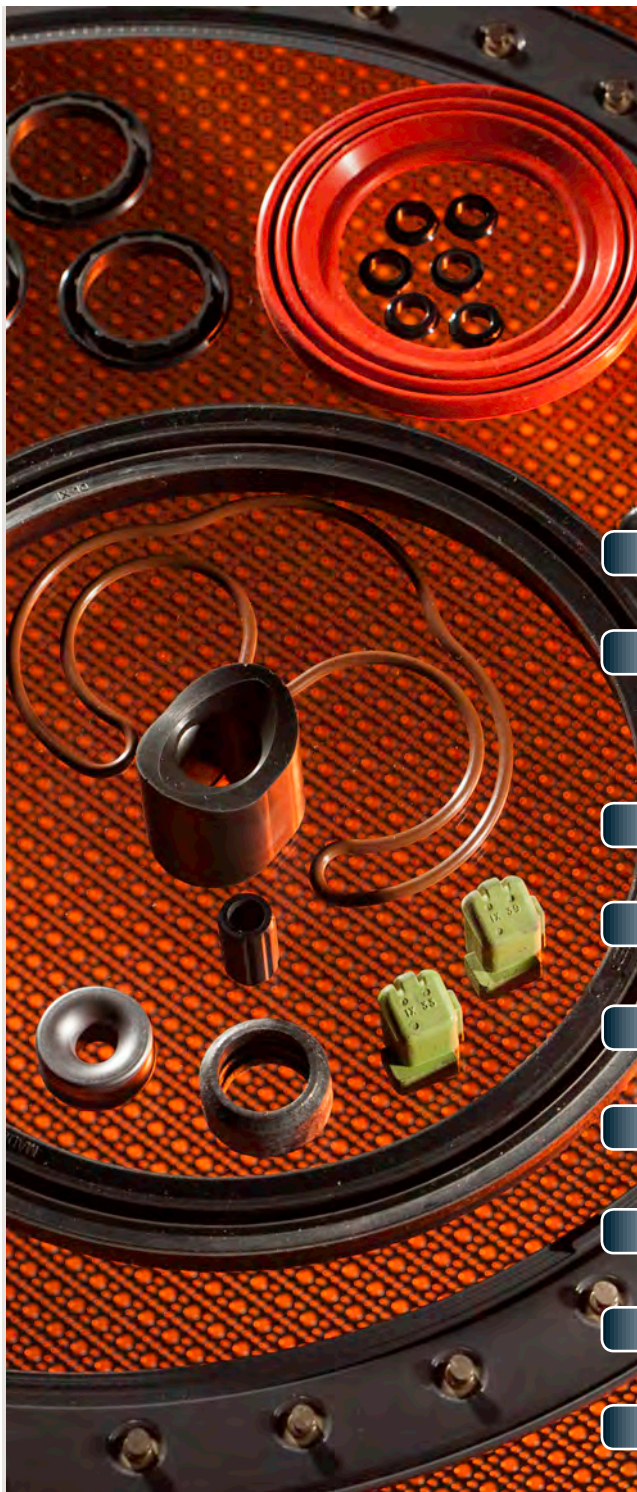

### THE MOST TRUSTED NAME IN FUEL SEALS®

Precix® is driven to excel in all automotive applications, so no matter what your needs, we can provide the best elastomeric solution for the job. Our materials and seals provide lasting performance and superior protection in use with all fuel compositions and additives through a limitless range of pressures and temperatures. Exceptional fluid resistance...reduced permeation...diminished electrostatic discharge (ESD)...with Precix®, all systems are GO.

- gas cap
- filler neck
- rollover valves
- fuel pump/module
- tank
- quick connects (liquid and vapor)
- sensors
- rails
- injectors
- carbon canisters
- fuel filters
- any sealing application dealing with any fuel blend

All Precix® products are engineered and manufactured to order in the United States to your exact specifications.

## BRAKE SYSTEMS

Only Precix® has the capabilities to produce totally flashless molded brake parts. Our in-house precision tooling and molding technologies eliminate the need for trimming and yield nearly perfect cups, seals, and o-rings that deliver superior performance and safety your customers can depend on every time. Brake system solutions include:

- ABS Seals & o-rings
- Master cylinder seals
- Wheel cylinder cups
- Disc brake boots and cups

## ADDITIONAL AUTOMOTIVE SEALING SOLUTIONS

- Pollution control valves (PCV)
- Exhaust gas recirculation (EGR)
- Cam phaser/position sensors
- Crankcase inlet
- Transmission
- Transmission solenoids
- Dual clutch
- Hybrid battery cooling
- Catalyst injection/emission control
- Oil caps
- HVAC
- Oil pumps
- Oil pressure sensors

**Let Precix® provide the elastomeric solutions you need.**
